

## An Aboriginal Health Authority Supporting a Healthy Future

The National Aboriginal Community Controlled Health Organisation is calling for a new way forward in Aboriginal health.

We are lobbying for a well-resourced, strategic Aboriginal Health Authority led by Aboriginal Peoples to monitor, advocate and plan for a healthy future.

You can help our campaign to gather support for an Aboriginal Health Authority and to have it adopted by government.

The Authority will give Aboriginal communities, government and the wider community the financial transparency in the expenditure of Aboriginal health dollars that's needed as we work towards closing the gap in life expectancy.

To help us make the Aboriginal Health Authority become a reality please contribute to our campaign.
